GreenDex

It seems everyone is tripping over themselves these days to be green, but sometimes it's difficult to know which businesses really are eco-friendly, and which are simply jumping on the sustainable travel bandwagon. The following attractions, tours and accommodation choices have been selected by the authors of this book because they demonstrate an active sustainable-tourism policy. Some are involved in environmental or wildlife protection, some foster authentic interaction and greater understanding between travellers and their local hosts, while others are community-owned or make a point of employing local people, thereby maintaining and preserving local identity and culture, and alleviating poverty.

We want to keep developing our sustainable-tourism content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, contact us via www.lonelyplanet.com/feedback and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
